On behalf of my staff, I welcome you to our dental practice! We are pleased that you have selected us to care for your dental needs and we are committed to providing you with the highest quality of oral health care in a gentle, efficient and enthusiastic manner.

In our office, we strive to give each patient personal attention. We believe that a comfortable relationship allows you to experience pleasant dentistry. We are aware that some patients may have some uneasiness about receiving dental care and we will make every effort to help relieve any apprehensions that you may have.

In order for us to serve you, we must have good communication; we need to know what you are feeling. It may be necessary for us to spend some time educating you about dental disease, treatment options, and disease prevention. We believe that our patients should play an active role in the delivery of their dental care. The patient who understands the nature of dental disease and how it can be prevented has the ability to co-partner with our dental team to obtain and preserve good oral health.

Please read the attached office brochure to acquaint you with our practice philosophy and guidelines. If at any time, you have a question about treatment, fees, or service, please discuss your concerns with us promptly and openly. Your understanding and cooperation will help us to maintain a pleasant relationship.

Sincerely,

Debra V. Irvin, DDS
